Avg Reversal: 67 tick (17-44 min after Pk	Min	25 ticks	s (2/23 _/	/12)	Max: 181	ticks	(7/12/12)
Last 10 Reports: 4:SP	K/REV	REV 3:2N		0 : DULL		3 : INDECISIVE	
Recommended BracketDistance setting: 10							

Trade with caution and ensure you understand the risk. Use a 10 tick buffer for this trade to avoid a premature fill in the wrong direction.

After a safe April – June timeframe for this report with only one indecisive report, 3 reports in late June and early July were losers, then the last 7 reports were safe and delivered a big yield. Then the last 3 weeks were indecisive again before we took a break for December. As we shift into the colder months, the distillate reading of the report holds more sway and presents a riskier trade for JOBB. That is the nature of this report, though. Look for 30–50 ticks on the spike, and 40–60 ticks on the reversal. If the initial spike pops for only 15–20 ticks, get out there if possible, because a reversal is likely forthcoming. Does not routinely abide by the laws of supply and demand.

It is also a safe play to wait out the initial reaction to check the results and enter a manual trade 2-5 min after the report breaks. Paper trade this if you have not traded this report before.

HIGH IMPACT REPORT ALERT: Wednesday, 2/6/13

AUS Employment Change / Unemployment Rate									6	A 03-	13

Recommended BracketDistance setting:					7						

One of the bigger periodic AUS reports. Lately, nearly every report has been a 2nd Peak reaction, but on every occasion except for once, the 2nd peak has only garnered another 4–15 ticks. Very consistent spike of 25–50 ticks on the 1st bar. This report used to be a solid spike/reverse mold, but 7 of the last 8 reports have yielded 2nd peaks of 35–60 ticks. Since that is the case, be careful trading the reversal. It is better to wait for a trade against the grain and miss it, then go in too early and find yourself eating a loss. The 25–30 min area after the report is a good area to evaluate an entry for the reversal. Look for 20–40 ticks on the reversal.
