

HIGH IMPACT REPORT ALERT: Week of 10-14 September Schedule:

Busy week with a compressed schedule due to the Labor Day holiday.

Monday: Nothing

Tuesday: Trade Balance - 8:30 AM EDT

Wednesday: Crude Oil Inventories - 10:30 AM EDT

Thursday: Natural Gas Storage - 10:30 AM EDT

Friday: Retail Sales - 10:00 AM EDT

Notes:

1. We will not trade the Weekly Unemployment Claims this week since PPI will be released at the same time. Trading the reversal on a big breakout is still advisable.
2. The Retail Sales report on Friday will be released at the same time as Core CPI, but is still recommended as Retail Sales will overshadow CPI.
3. Industrial Production at 9:15 AM EDT on Friday has been moved to the DO NOT TRADE List after 4 months of dull reactions.
