

HIGH IMPACT REPORT ALERT: Week of 22-26 October Schedule:

Medium # of reports with several rare heavy hitters .

Monday: Nothing

Tuesday: CAN BOC Rate Statement / Overnight Rate - 9:00 AM EDT
AUS (Quarterly) CPI - 8:30 PM EDT

Wednesday: Crude Oil Inventories - 10:30 AM EDT
FOMC Statement / Federal Funds Rate - 2:15 PM EDT

Thursday: Natural Gas Storage - 10:30 AM EDT

Friday: Advance GDP - 8:30 AM EDT

Notes:

1. We will likely shift to the new front month NG contract of 12-12 for the NG storage report on Thursday. I will put out an advisory on the Thursday HIRA.
2. Durable Goods will be released at the same time as Weekly Unemployment Claims on Thursday. This presents too much risk and disqualifies trading the spike with JOBB. Trading the reversal on a relatively large breakout is still safe and advisable.
