

Week of 12 - 16 November Schedule:

Slow week in the middle of the month with Veterans Day.

Monday: Nothing - U.S. markets closed (Veterans Day celebrated)

Tuesday: Nothing

Wednesday: Retail Sales - 8:30 AM EST

Thursday: Philly FED Manufacturing Index - 10:00 AM EST

Natural Gas Storage - 10:30 AM EST

Crude Oil Inventories - 11:00 AM EST

FED Chair Speech - 1:20 PM EST

Friday: Nothing

Notes:

1. Retail Sales will be released at the same time as PPI. This report is still recommended for trading as Retail Sales should strongly overshadow the PPI results.
2. We will not trade the Unemployment claims this week as CPI will be released at the same time.
3. The FED Chair Speech on Thursday may be removed as I get more "intel" on the topic and potential impact.
