

HIGH IMPACT REPORT ALERT:

Tuesday, 1/7/14

U.S. Trade Balance	RISK: 2	6J 03-14
8:30 am Eastern / 5:30 am Pacific	Forecast: -40.2B	
Recommended BracketDistance setting:	3	8 Tick Stop

Small moving US report that is often paired up with Unemployment Claims and disqualified from trading. We continue to trade this on the 6J after 4 times (JUN, AUG, SEP, DEC). JUN and AUG were nice for 14 and 16 tick spiked, while SEP and DEC were both dull with no fill after 15 sec. Look for 5-10 ticks on the spike in 1-2 min and a higher reversal of 10-15 ticks that is quick to rebound. 2nd Peaks are a rarity on this report.
