Notes:

1. We are shifting to Gold (GC 06-13) for the Unemployment claims as it appears have a proven track record over the last few months of safe and more profitable reactions. We will still leave it as a RISK: 3 for now as it needs to survive a probationary period with a safe track record.
2. We will shift to the new front month contract for the CL (06-13) probably on Thursday, depending on the rollover volume levels.
3. AUS Monetary Policy Meeting Minutes is normally a RISK 2 report. Due to the indecisive AUS RBA Cash Rate, the RISK level has been raised.
