Notes:

1. Shift the ZC to the new front month contract 03-14 (if not done already).
2. There are several reports releasing at 8:30 AM EST on Thursday (Core/Regular Retail Sales, Import Prices, and Unemployment Claims). This will still be safe with the Trap Trade approach.
3. This week will be the last week trading until the JAN Non-Farm Employment report. There will be no further alerts until after the New Year. Trading news is discouraged due to a strong dropoff in volume and attention paid to the news. Trap Trades on the Unemployment claims should still be safe but all other reports are discouraged.
4. The last forensic webinar of this year will be on Saturday, 14 DEC at 5 pm EST.
