Notes:

1. We are still working out the bugs of the site migration. The licenses for the software, alerts, and email are functioning correctly, but the member content and website are temporarily down. We apologize for the inconvenience and are working with tech support to restore the website as soon as possible. Thank you for your patience!

1. Rollover the NG to the new front month contract, NG 03-14.

2. Advance GDP releases at the same time as Unemployment Claims on Thursday. This will still be safe for trading, but raises the risk to a "3" due to the low probability of strongly divergent results.

3. The next forensic webinar will be on Saturday, 1 FEB at 5 pm EST. We will have a special guest, Sky Woo from My Trade Host to discuss the benefits of a VPS platform.
