

Hi it's Scott and Jay, thanks for joining us today to talk about the

We introduced JOBB about 6 months ago and it has been a huge success. Our members and Users love the way it makes money for them and the automation is amazing.

Not only is it an automated way to make \$100 to \$900 a day but the pre-trading analysis and post-trading analysis is second to none

Take a look at Jay’s in depth HIR Reports that our members get 24 hours prior to the trades

HIGH IMPACT REPORT ALERT: Thursday, 6/21/12

Unemployment Claims				
8:30 am Eastern / 5:30 am Pacific			Forecast: 385K	
Avg 1st Peak: 20 ticks (1–2 min after report)		Min: 6 ticks (6/7/12)		Max: 47 ticks (4/12/12)
Last 6 Reports:	5 : SPK/RTC	0 : 2ND PK	1 : DULL	0 : INDECISIVE

The forecast for claims is shifting higher. If the reading comes in above 400, or below 365 look for a big pop of 30 or more ticks. Otherwise, a quick 15–25 ticks with a pullback a few seconds later will likely be seen on a reading within 15 of the forecast – in that case move the stop loss to near break even and close/exit with a handful of ticks.

Natural Gas Storage (Yellow Report) (Use NG 07–12)				
10:30 am Eastern / 7:30 am Pacific			Forecast: 51B FT³	
Avg 1st Peak: 50 ticks (1–3 min after report)		Min: 19 ticks (4/19/12)		Max: 142 ticks (6/14/12)
Avg 2nd Peak: 92 ticks (5 min after rpt)		Min: 55 ticks (5/17/12)		Max: 257 ticks (6/14/12)
Avg Reversal: 51 ticks (6–19 min after Pk)		Min: 16 ticks (3/8/12)		Max: 98 ticks (4/12/12)
Last 10 Reports:	4 : SPK/RTC	2 : 2ND PK	0 : DULL	4 : INDECISIVE

With these HIR reports you can set your schedule to trade only when Jay says there is a good and safe trade to be had.

If the reading is 15-25 ticks below the forecast, the market will look for a demand of 400,000. If the reading is 15 of the forecast - in that case move the stop loss to near break even and trade with a target of 15 ticks.

And, twice a month Jay does live recap and analysis Webinars to go over the past couple of weeks of trading to explain and discuss exactly how everything went down.

In the Webinars we invite you to participate and debrief from the weeks trading.

This is where the real learning comes in and you will be transformed from a sideline trader to a trading STUD

# KNOWLEDGE IS POWER AND JOBB IS POWERFUL

Jay and I want to invite you to take advantage of the

right now by joining our growing group of happy member traders

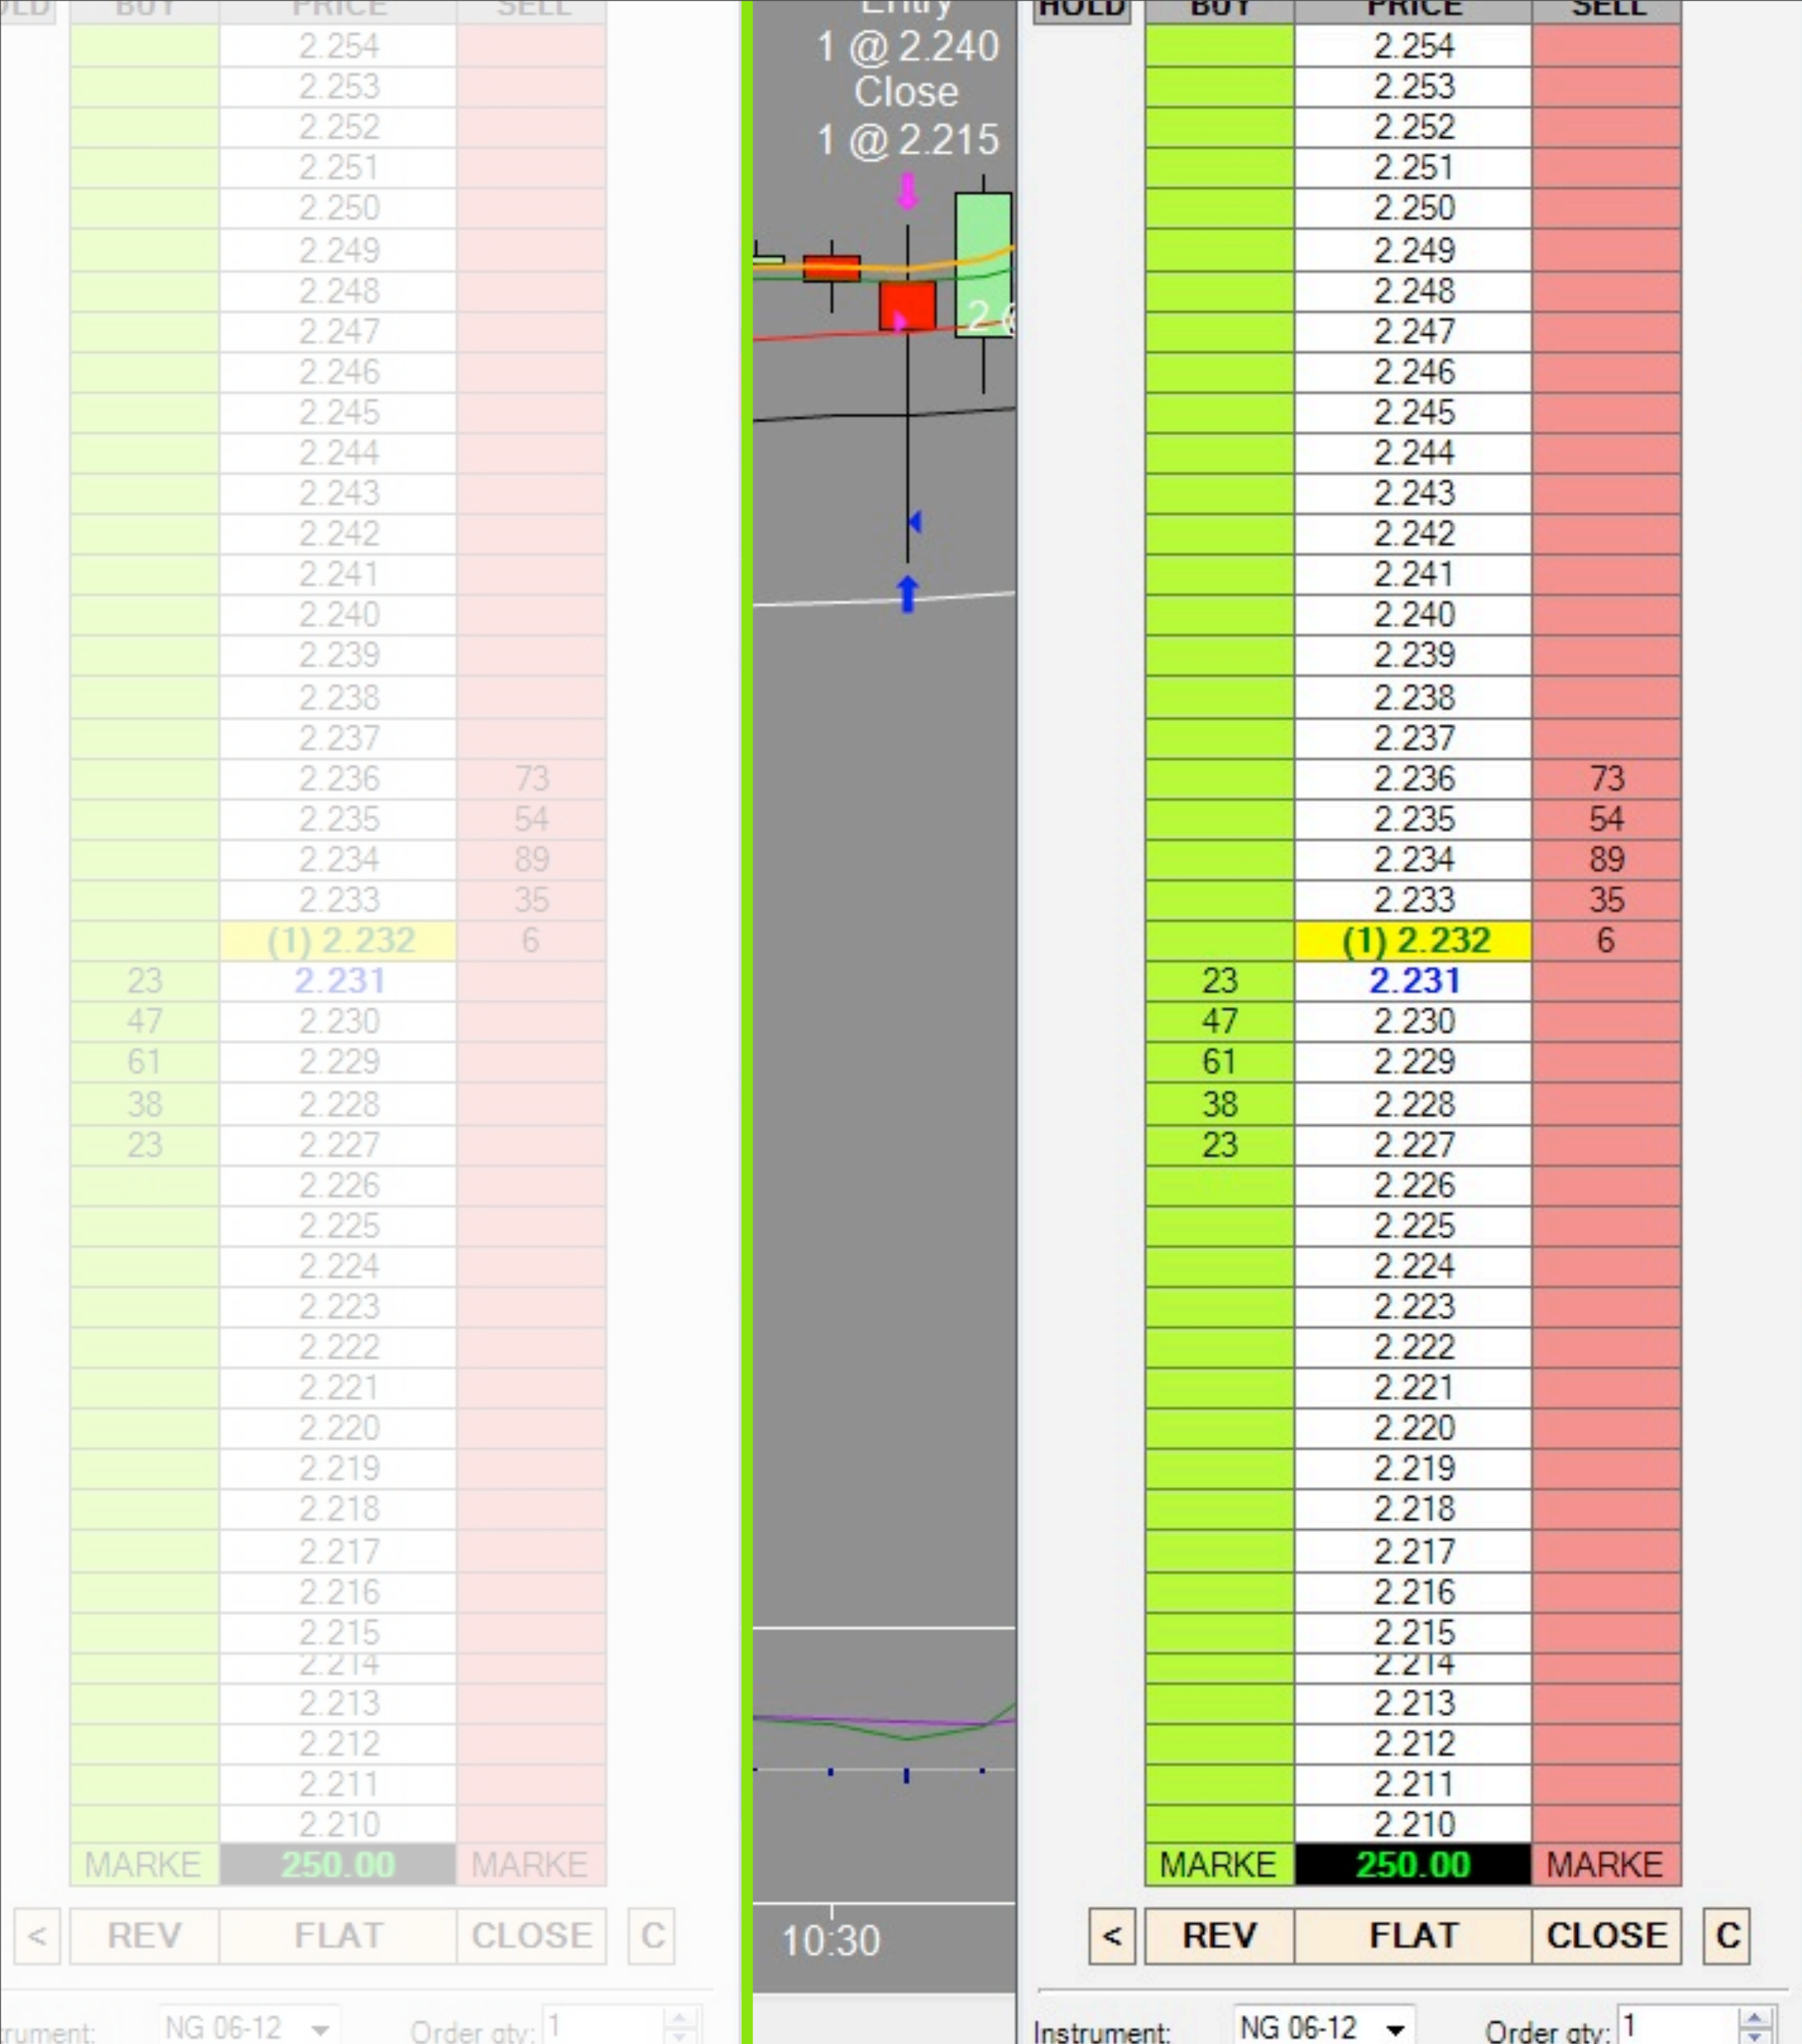

Jay,  
you don't have an idea of the troubles. I got off a train, went to a hot spot for internet, played the announcement and I'll be back on a train in 5'.

You suggestion described an 'easy' report, I didn't want to miss it. Maybe I missed a bit, or a lot, I cannot say, but I am happy with my +110

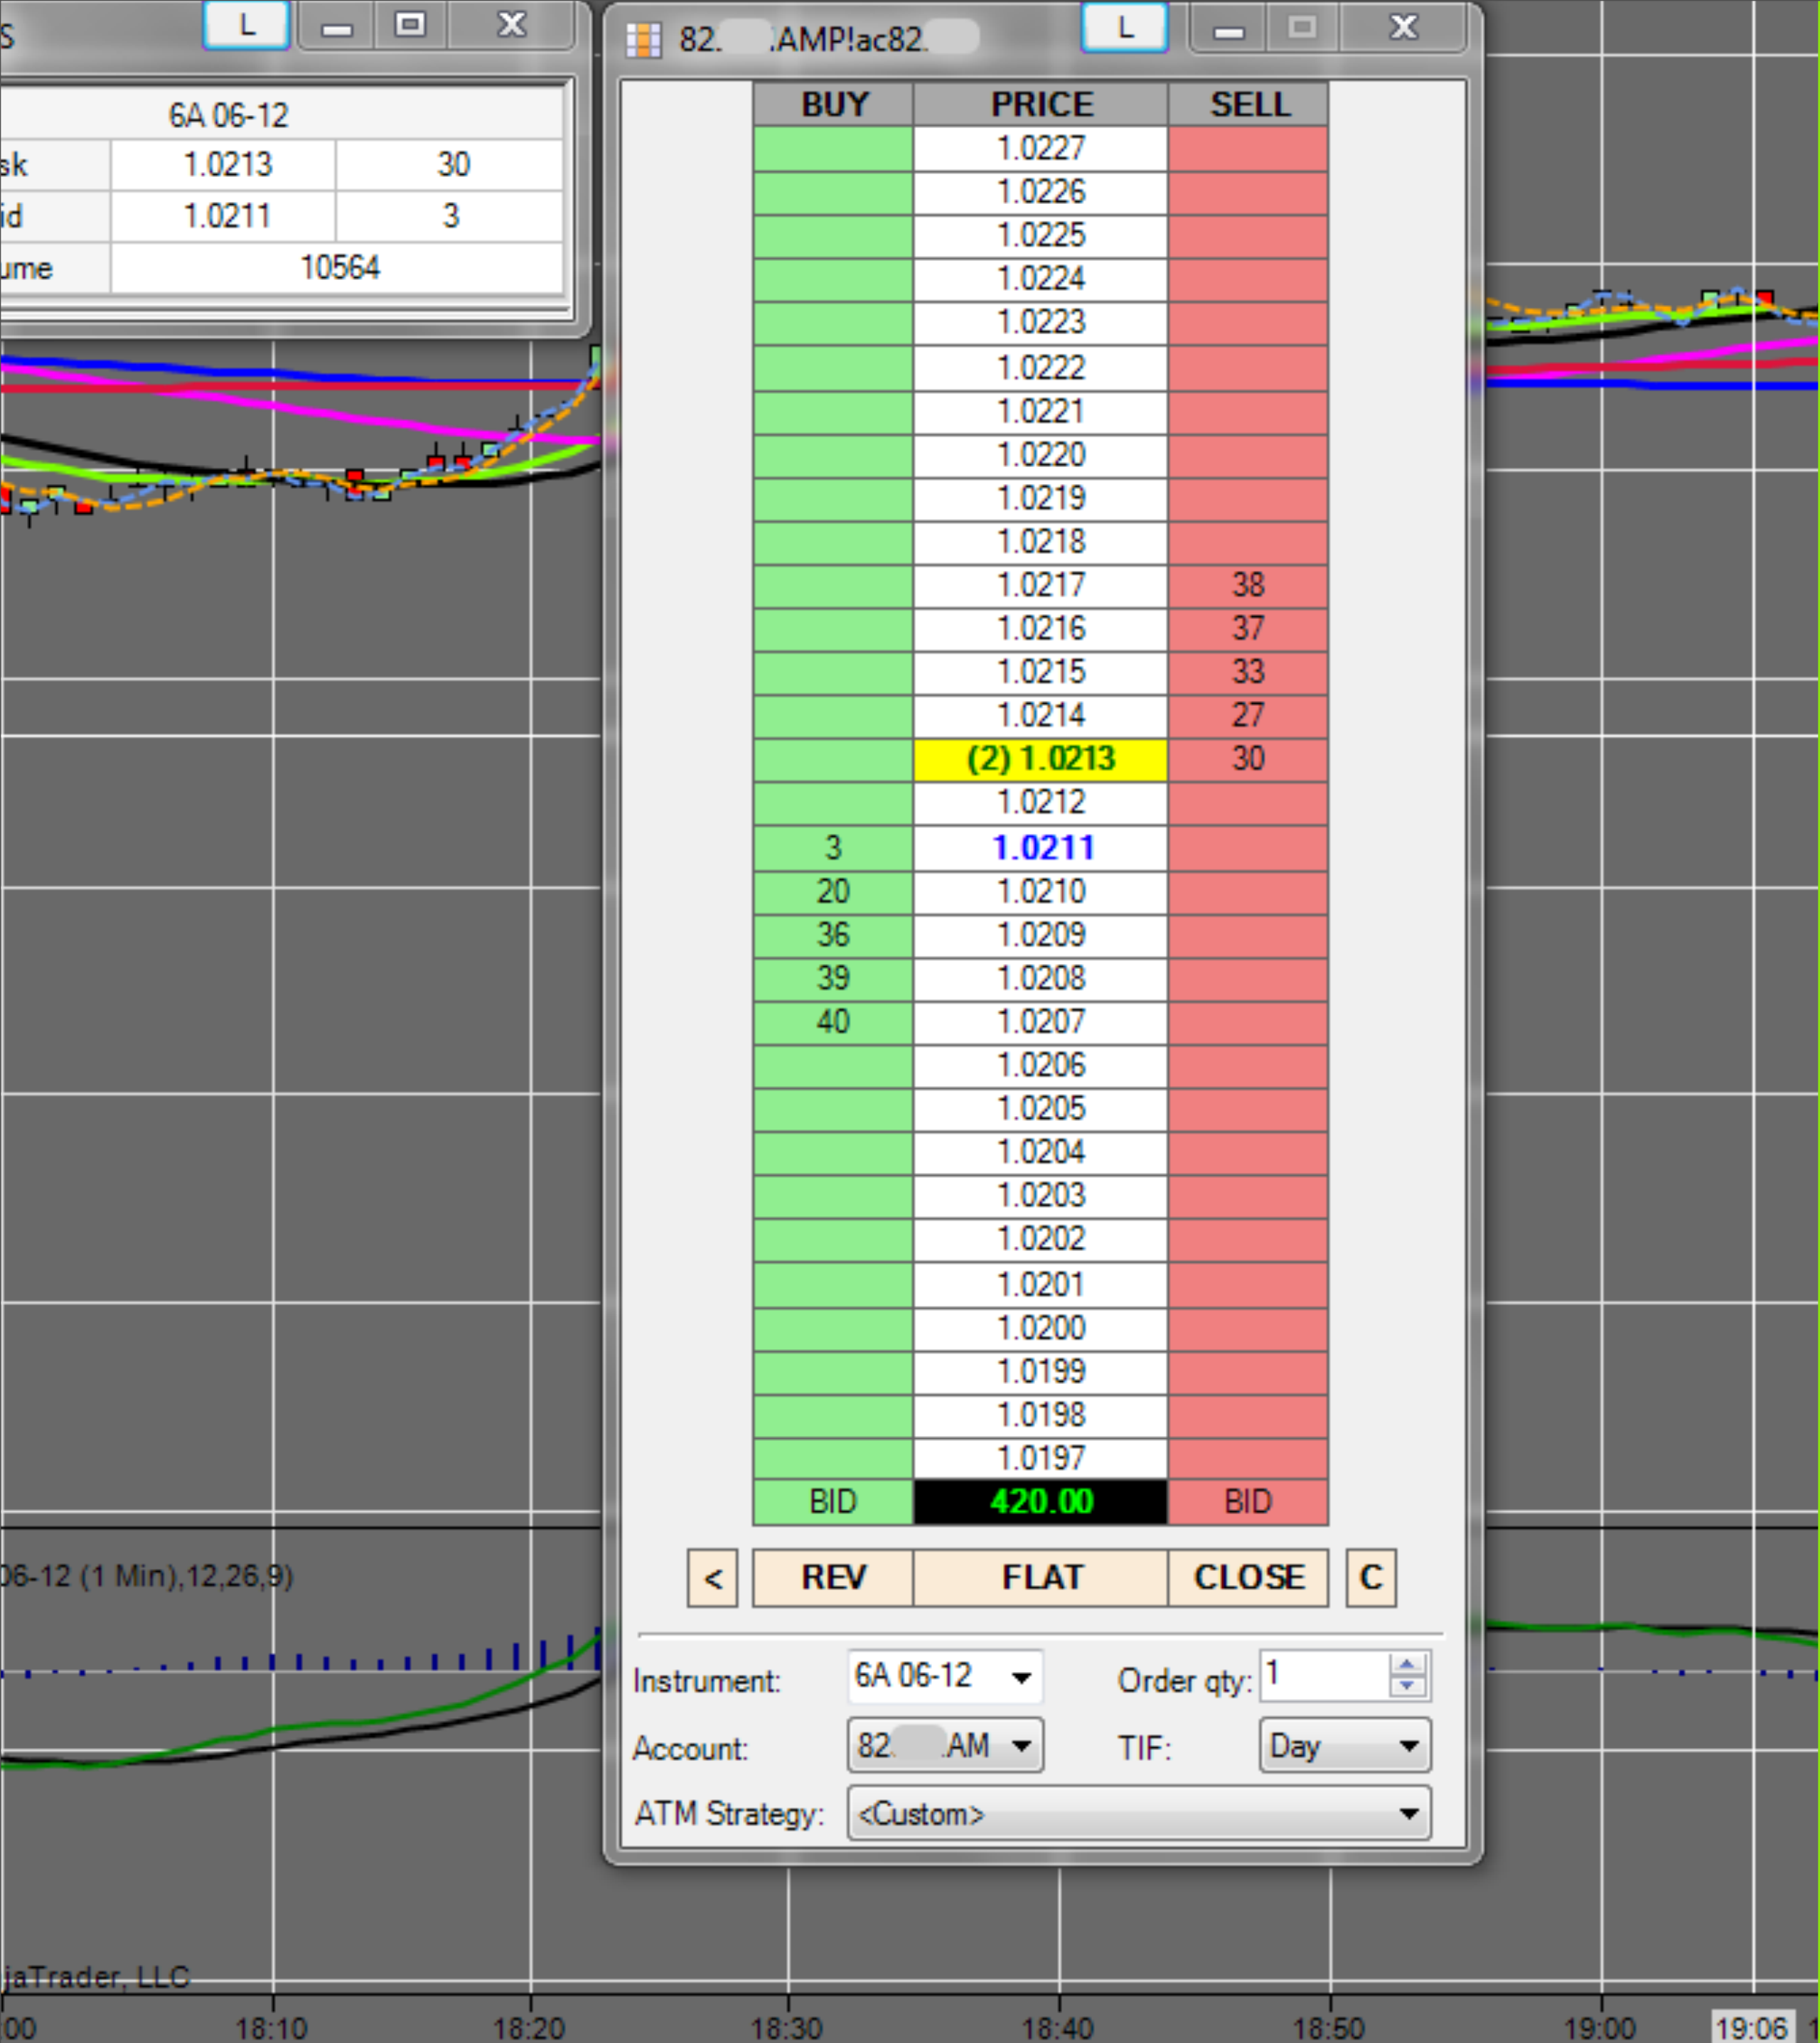

Happy weekend!

Real money, 25 ticks on one contract.

Hi Jay,

I just wanted you to know I followed your 'recipe' to the tee this morning and made a quick \$400 on the Canadian report. Thank you. I've recovered my losses over the last couple weeks. Since I reported a loss last time, I wanted to let you know about the profit this time.

I have a screen shot.

Jay!

I have been on the sideline Sim trading with the JOBB software. I finally stepped up this morning and traded the NG report on my REAL ACCOUNT! 31 Ticks of profit off this trade. I have been trying to trade for a year now. I lost quite a bit of money last year and been Sim trading every since. I have taken 3 different courses which I learned a lot but not enough like your course and the Oil Money course! The Oil Money And the JOBB is where it's at! I can't thank you and Scott enough for this precious course and software! I almost made my total investment back on this trade. I look forward to taking the Meditative course real soon as well!

Happy Trading!  
Gary Williams
